Adds effervescence to life

Types of Calcium

- Calcium carbonate = 40% Elemental calcium
- Calcium citrate = 21% Elemental calcium
- Calcium gluconate = 9% Elemental calcium
- Calcium lactate = 13% Elemental calcium

- Elemental calcium is key because it's the actual amount of calcium in the supplement. It's what your body absorbs for bone growth and other health benefits.
- Leading brands of effervescent Calcium tablets from Pakistan were tested for their composition and contents in a German laboratory.*

* sanotact GmbH, (Data on File, Nov 2018)

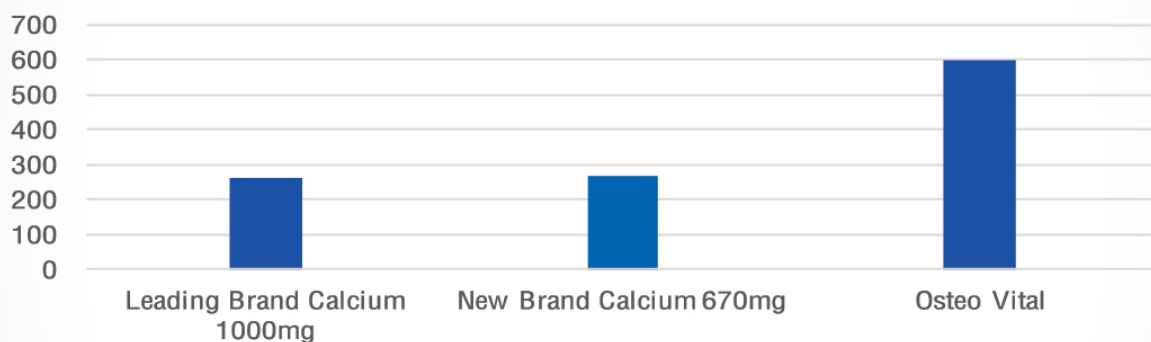

Brand	Elemental Calcium
Leading Brand Calcium 1000mg*	261mg
New Brand Calcium 670mg†	268mg
Osteo Vital‡	600mg

* Composition: calcium lactate 1000mg, calcium carbonate 327mg = elemental calcium 261mg

† Composition: calcium carbonate 670mg = elemental calcium 268mg

‡ Composition: calcium carbonate 1500mg = elemental calcium 600mg

- Osteo Vital contains more than double the amount of elemental calcium in comparison with available leading brands.
- Osteo Vital has a better combination of other ingredients making it an ideal combination.

More than double concentration of calcium
